Notice of Non-Responsive Amendment

1. The reply filed on 12 December 2006 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): the marked-up copy of the specification submitted 28 August 2006 does not accurately set forth the additions and deletions as compared to the original specification. For example, on page 11, lines 4, 10 and 13 under the Brief Description of the Several Views, "FIG.1" was not in the originally filed specification and is not underlined, "and" is underlined as an addition, but is present within the original specification and "attachments" was not present within the original specification and thus should have been underlined as an addition, respectively. The marked-up copy of the newly submitted specification should be carefully reviewed to make sure that all additions and deletions as compared to the original specification are being properly shown and in compliance with the requirements regarding substitute specifications. Entry of the substitute specification as well as providing a proper response to the Notice of Non-Compliant Amendment mailed 01 August 2006 is dependent upon the filing of an accurate marked-up copy. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**
